

Meryem Abdullayeva

Front-End Developer

Front-End Developer with 2+ year of commercial experience building scalable and responsive web applications using React and TypeScript. Experienced in state management with Redux Toolkit and RTK Query, API integration, and performance optimization. Currently working as a Front-End Instructor, mentoring students in modern frontend technologies. Passionate about clean code, reusable component architecture, and user-centered design.

Computer Skills

- Frontend**
HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.JS Redux Toolkit, RTK Query, Context API, Tailwind CSS, SCSS, Bootstrap
- Testing**
React Testing Library, Integration Testing, Manual Testing
- API & Data Handling**
RESTful APIs, RTK Query, Postman
- Performance Optimization**
Lazy Loading, Code Splitting, React.lazy, Suspense, Memoization

- Tools & Workflow**
Git, GitHub, Agile/Scrum, ClickUp, SDLC, STLC, Jira, Trello, Notion, Figma
- Other**
Basic Python, SQL, C++, C, Data Structure and Algorithm

Soft Skills

- Strong communication skills
- Team collaboration
- Problem-solving mindset
- Time management
- Analytical thinking
- Adaptability & quick learning
- Attention to detail
- Continuous improvement mindset

Projects

- Ormado.de**
<https://ormado.de/>
- Gulcu.az-Design & Function Support**
<https://gulcu.az/>
- Elit Electric**
<https://elektrikusta.az/>
- Personal-Protfolio**
<https://portfolio-gold-eta-58.vercel.app/>

Work experience

- Front-End Instructor** Since Aug. 2025 (1 year)
Matrix Academy, Baku, BA, Azerbaijan
 - Teaching HTML, CSS, JavaScript, React, and Redux Toolkit
 - Mentoring students in building real-world, production-style projects
 - Reviewing student code and providing architectural and performance feedback
 - Teaching API integration and best practices for working with backend services
 - Explaining state management, component architecture, and clean code principles
 - Guiding students in debugging, performance optimization, and project structuring
 - Introducing Git workflow and collaboration best practices
- Front-End Developer** From Mar. 2025 to July 2026 (1 year+)
Webluna Software, Azerbaijan, Baku
 - Developed scalable and responsive web applications using React and TypeScript
 - Implemented state management using Redux Toolkit and RTK Query
 - Integrated RESTful APIs and handled asynchronous data fetching
 - Optimized application performance using memorization and component reusability
 - Collaborated with backend developers and designers in Agile environment
 - Improved UI responsiveness across mobile and tablet devices
 - Implemented lazy loading using React.lazy and Suspense to optimize initial load time
 - Managed version control using Git and GitHub in team environment

Education

- Bachelor** From Sept. 2022 to Jun. 2026
Academy of the State Customs Committee, ASCCA
Information Technology (teaching in English)
- Course** From Jun. 2024 to Jan. 2025
Girl's Code Azerbaijan, Matrix Academy
Front-End Programming
- Course** From Feb. 2025 to Jun. 2025
Xploit Academy, Baku, BA, Azerbaijan
QA Manual

Certificates

- IELTS Academic – Overall Band Score: 6.5** From May 2026 to May 2028
Barattson, Baku
- Front-End Programming-Honours Degree** Jun. 2024
Girls Code Azerbaijan, Matrix Academy
- QA Manual** Feb. 2025
XPLOIT Academy, Baku, BA, Azerbaijan
- Data Structures and Algorithms** May 2025
Microsoft, 4IR Academy-Nation Program Coursera

Voluntary Experience

- Digital Administration-IT Department** From Oct. 2024 to Jan. 2025
Azerbaijan General Customs Department for Air Transport, ASCC
- Lead Social Media Manager** From Sept. 2022 to Sept. 2025
Student Youth Organization (TGT), Baku, BA, Azerbaijan
- Public Relations (PR)** From Sept. 2022 to May 2023
Student Youth Organization (TGT)-IT Club, Baku, BA, Azerbaijan
